Capstone Health is nationally recognized for providing access to affordable primary, preventative and wellness services distinguished by mission, vision, integrity, and respect in Walker County, Winston County, and surrounding areas.

FY 2024 – FY 2026 Plan

This document serves as the comprehensive blueprint for Capstone Health, strategically addressing ongoing access and service delivery issues within the ever-evolving healthcare landscape. It embodies Capstone Health's unwavering commitment to building upon past successes while propelling its mission, vision, and values forward. The ultimate goal is to enhance health access and attain health equity through the provision of patient-centered, high-quality healthcare services, fostering a proficient and skilled health workforce, and pioneering innovative programs ,

The Capstone Health Strategic Plan encompasses four distinct focus areas, serving as a framework to outline the primary strategies that will be employed to achieve success in fulfilling our mission. Each focus area targets specific facets of our operations, ensuring a comprehensive and holistic approach towards improving health outcomes and advancing healthcare accessibility for all individuals.
